HARRY GLEASON HAS SET ANCHOR AT THE LOCAL CORINTHIAN YACHT CLUB OF CAPE MAY

**CYCCM begins the 2007 season with Harry Gleason, formerly of
Daniel's on Broadway, as Chef / Club Manager.**

Cape May, NJ April 9, 2007 – The Corinthian Yacht Club of Cape May is excited to welcome local resident, Harry Gleason, to fill the dual role of Chef and Club Manager. Chef Gleason came to Cape May after years of running his family's restaurant outside of Valley Forge, PA. He and his wife opened the critically acclaimed Daniel's on Broadway of West Cape May in May 1998. There, his cuisine won many awards and recognitions. In 2005, he opened Island Grill in Cape May; and was a partner at the Dogtooth Bar and Grill in Wildwood until a few months ago.

In his new position, he will be preparing his creative and flavorful cuisine for the members of the Club at numerous social events throughout the year, as well as providing quality catering service during private receptions held at CYCCM. In the fall of 2004, the facility underwent extensive renovations to accommodate the frequently requested rentals. The Club, situated on Cape May Harbor, has a rich history of promoting sailing in the community. It is an ideal waterfront

location, with its view of spectacular sunsets, refreshing breezes and ample room both inside and out, to host special events throughout the year. Also, in response to numerous requests by Club members, Gleason will be expanding both the Tavern and Snack Bar menus to include healthier selections, and improving the quality of both food and service.

Harry Gleason is a welcome addition to the Corinthian Yacht Club of Cape May, sure to satisfy the appetites of current members, new members, and anyone attending catered functions there. To learn more about Gleason or CYCCM, visit the website at www.cyccm.com or contact the club at 609-884-8000 to arrange a tour of the facility.
